**Note:** Each API License covers one Client (a single individual or legal entity, excluding Affiliates) and one tool or database. Fees apply per API License, not per individual Client Account.

The High-Performing Database fee is individually agreed within the stated range using the assessment factors in Annex 1 of the T&C, including membership. No separate fixed member rate applies.

Start-Up fees are available only following classification by ECO Platform and for a maximum of one API License Period. A zero member fee for Start-Up Internal Tool Use does not constitute approval for Non-Commercial Use.

### Classification

Use Categories, classification thresholds, Start-Up eligibility, voluntary High-Performing classification and fee assessment are governed by the definitions and Annex 1 of the T&C.

### **Service features and service levels**

Service features and usage limits are specified in the individual offer. For High-Performing Clients only, the ECO Portal Service Level Agreement (SLA) applies where expressly incorporated into that offer. Please refer to the SLA for account and capacity allowances, support and response targets, availability and maintenance rules, and Service Credits. The SLA does not apply to Start-Up or Standard Clients.

## **3 REGISTRATION, PAYMENT AND RENEWAL**
